

MIDLAND GARAGE DOOR MFG. CO.
CUSTOM DESIGN SERIES
BY JELD-WEN

Jeld-Wen's unique residential garage doors offer a wide variety of choices in styles ranging from Traditional to Carriage House design options. This garage door represents a combined effort with Jeld-Wen, who for over thirty years has been a world leader in composite technology. The advanced polymer exterior and trim boards will not crack, split, separate, shrink, expand, rust or dent. Extra-wide LVL laminated support rails give these doors the strongest structural support in the industry. The factory thermal-set primer requires finish painting. You choose the colors that complement your home. The entire face of the door, regardless of design, is made from the same material and made in the same plant. Therefore, the components are bonded for life, and match and fit perfectly. Built to be beautiful and move quietly and easily with Midland's smooth torsion spring system. Each door panel rides on its own set of ultra quiet residential rollers, which are fitted to a heavy-duty track.

Please visit your Midland Garage Door authorized dealer for details.

The above Jeld-Wen design is shown with the Wynbridge window design and with one of the many Decorative Hardware options.

THE SECRET BEHIND GOOD LOOKS!

Next to your front entry door, your garage door creates the first impression of your home.

BE CONFIDENT. YOU'VE CHOSEN THE BEST!

Please visit your Midland Garage Door authorized dealer for details.

1. Strong - The extra-wide LVL laminated support rails give Midland/JELD-WEN garage doors the strongest structural support in the industry. All surfaces are bonded with waterproof catalyzed glue.

2. Energy Efficient - Packed with environmentally safe, CFC-free, expanded polystyrene insulation, this provides stability with no loss of R-VALUE over time.

3. Super Skin - Thermal set melamine resins combined with refined cellulose fibers create an exterior door skin that is virtually impervious to moisture, cracking, rotting, sub-zero freezing, desert heat and the damaging effect of the sun's ultraviolet rays.

4. Durable - The JELD-WEN Advanced Polymer skin and trim boards won't crack, split, separate, shrink, expand, rust or dent. All the materials on the face of the door are made in the plant and of the exact same materials. The result is an incredibly durable exterior.

5. Conserves our natural resources
JELD-WEN skins and trim boards are made of 100% recycled fiber.

Doors to be painted prior to installation with v100% acrylic water based paint.

Our Garage Doors withstand the ASTM (American Society For Testing Materials) ACCELERATED WEATHER TEST

- Hour 1: Submerged in 120° F water
- Hours 2-4: Exposed to 200° F steam and water vapor
- Hours 5-24: Frozen at 10° F
- Hours 25-27: Baked at 210° F
- Hours 28-30: Exposed to 200° F steam and water vapor
- Hours 31-48: Baked at 210° F

if that's not brutal enough... the whole process is repeated FIVE MORE times

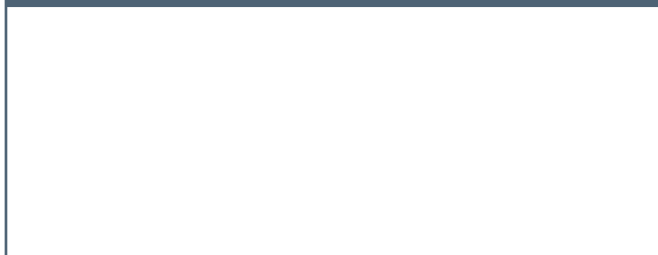

that's TOUGH!

Type of Track	*Headroom	Sideroom	Center Post
15" radius	16"	3 1/2"	7"
12" Radius	13"	3 1/2"	7"
