

Our Series 26 residential ribbed steel garage door combines the simplicity of a ribbed design with strength you can rely on. We construct our two-inch ribbed door with 26-gauge pebble-grain textured steel to offer an affordably priced option for any storage building or apartment complex.

Each door is built with heavy-duty components for trouble-free operation. A commercial-grade astragal weather seal along with Midland's ultra-quiet rollers and smooth torsion spring system guarantee superior dependability. From development to operation, Midland produces reliable doors that will last for years to come.

The Art & Science of Your Series 26 Ribbed Door

The traditional design of the Series 26 offers an affordably-priced, reliable option for a wide range of applications such as storage buildings or apartment complexes.
